

**MAKE
THE
PROMISE.**

Cancer screenings save lives. This we know. But, it's time to take it a step further. It's time to do something. **MAKE A PROMISE.** If you're between the ages of 50-75, promise to get screened for colorectal cancer. Because when it's caught early, that's when cancer is most treatable. Make the promise for yourself and your loved ones.
